EXPERIENCE

Technology & Product Research Intern Jun 2025 – Aug 2025
DRDO – Solid State Physics Laboratory (SSPL) *New Delhi*

- Characterized high-frequency HEMT devices using VNAs and load-pull tuners; generated impedance contour plots to optimize PAE for device selection.
- Simulated a 10 m wireless transceiver (QUCS-S) and benchmarked BER across multipath environments via GNU Octave signal-processing algorithms.

Programme & Policy Research Intern Jun 2024 – Aug 2024
UBA, Ministry of Education – IIT Delhi *New Delhi*

- Analyzed Excel data across **70+ rural research projects** and ran **KPI tracking for 40+ projects** under the Sustainable Agriculture SEG, building scalable frameworks adopted across the portfolio.
- Reviewed **20+ environmental proposals** with IIT professors, assessing feasibility and resource allocation — findings directly informed government funding decisions.
- Built a Yamuna River duckweed bio-remediation model; Excel analysis projected a **60% reduction in heavy metals**, converted into a ministry policy brief.

PROJECTS

PhonePe Product Teardown — Wealth & Insurance Adoption | GitHub 2026
Product Research, UX Design

- Investigated why **700M+ UPI users** rarely adopt PhonePe's wealth & insurance products via primary survey + secondary research (**80% banner blindness**); built 2 personas, an 8-stage journey map, a 4-competitor benchmark, and a 5-Whys analysis.
- Shipped **4 redesigns** as interactive prototypes; defined a **North Star metric** with an L1/L2 metric tree.

Bank Customer Churn Analysis | GitHub 2026
Python (Pandas), SQL Server, Power BI

- Diagnosed ∼**20% customer churn** on a 10,000×30 dataset — Pandas cleaning, **17 T-SQL queries** (CTEs, window functions), and a Power BI dashboard.
- Delivered a ranked retention call-list of high-balance at-risk customers and a what-if ROI model for a **5-point churn cut**.

CineMatch — Movie Recommendation App | GitHub 2025
Python, Scikit-learn, Streamlit, NLP

- Built a real-time content-based recommender from TMDB 5000 (CountVectorizer, 5,000 features + cosine similarity); deployed on Streamlit Cloud with top-10 results in **under 1 second**.

End-to-End Loan Analysis Dashboard Dec 2023
Power BI, Dataflow, SQL Server, DAX

- Built an end-to-end Power BI analytics solution using Dataflows and **15+ advanced DAX measures**, enabling **3× faster** portfolio performance reviews.
- Configured Incremental Refresh for Dataflow and published with scheduled refresh to Power BI Service, cutting data latency from **24 hours to under 1 hour**.

POSITIONS OF RESPONSIBILITY

Vice President — Enactus NSUT (Founder, SRIJAN) Sep 2023 – Present

- Lead an **80+ member society**; founded **SRIJAN**, a circular-economy venture generating **Rs 4.8L revenue**, 50,000+ sheets recycled, 10+ corporate clients, and 10 workshops for **500+ participants**.
- Built the go-to-market for **Project AGNI** (Rs 1.6L revenue, 12 women employed): market research across **3 buyer segments**, competitor benchmarking, **P&L for 5 SKUs (52–61% margins)**, and a 60:40 B2B:B2C, 3-channel strategy.

Event Management Head — ASPIRE, Annual Fest of Enactus NSUT 2025

- Led end-to-end management for a **1,000+ footfall** fest; coordinated cross-team logistics, sponsorships, and speaker sessions.

ACHIEVEMENTS

- **Research Paper** — "Hardware Trojan Detection in FPGA-based ECG Systems" (Verilog/FPGA): real-time pipeline with over 95% detection accuracy; Univ. of Maryland Hardware Security coursework.
- **IEEE WIE International Leadership Summit** — attendee (2024); networked with Region 10 industry leaders and attended sustainable-innovation and design-thinking workshops.
- **2nd Position** — SANKALP Sustainability Ideathon, DTU (2024); **Best Early-Stage Startup** — SRIJAN, IIIT Delhi recognition programme.
- **1st (Zonal) & 3rd (District)** — National Children's Science Congress (NCSC-DST).
- Essay Writing Certificate, University of Amsterdam; Sikshana Foundation Training Scholarship (supported by Hitachi Energy).
